

Region 3 GPRA Baseline RCRA Corrective Action Facility

Safety-Kleen Systems Inc.

**600 Stewart Rd.
Wilkes-Barre, PA 18706
Congressional District 11
EPA ID #: PAD981737109
Last Updated: 10/06/2008**

Current Progress at the Site

An Environmental Indicator Inspection Report, dated July 2008, revealed that there are no known or suspected human health exposures or groundwater issues. The EPA RCRA Corrective Action program has proposed to make a Corrective Action Complete without Controls determination for the Facility. A Statement of Basis which explains EPA's proposed decision is available to the public. A public notice will be posted in The Times Leader newspaper on October 10, 2008 for a 30-day comment period ending November 10, 2008.

Site Description

The Facility is located at 600 Stewart Road in Wilkes-Barre, Hanover Township, Luzerne County, Pennsylvania. The Facility is bordered by industrial and commercial facilities on the north, east, and west. A large strip-mined area borders the southern boundary of the property. The Facility covers 2.0 acres. The 2.0-acre parcel was purchased by Safety-Kleen Corporation in 1986 and operations began in early 1988. The Facility provides solvent distribution, collection and reclamation services consisting of receiving and temporarily storing hazardous and residual wastes prior to either off-site disposal or disposition at permitted facilities. The Facility is located southwest of Wilkes-Barre and is part of the Hanover Industrial Estates, which is a mine reclamation and redevelopment site.

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.

Institutional Controls

There is no need for institutional controls at the facility at this time.
